Analytical Test Report Results

No. 18090174001-0101

16th August 2018

Client: Shin-ei Sangyo Co., Ltd.

Specimen Name: Class One

Synthetic Detergent

General foundational juridical person

Japan Food Research Laboratory

52-1 MotoYoyogi-cho, Shibuya-ku, Tokyo, Japan

The results of analytical test in 6th August 2018 which was submitted the above specimen at the Laboratory as follows.

The results of analytical test

Analytical Test items	Results	Minimum Determination	Note	Method
Detergent Compositional standards		-	1	-
Arenicum	Within the limit	-	2	-
Heavy metal	Within the limit	-	2	-
Methnol	Within the limit	-	2	-
Liquidity	Within the limit (ph 7.1)	-	3	-
Colorant	Within the limit (No detection)	-		Thin-layer chromatography

Note 1. Standards of Food, Additives (in 1959 Notification No. 370 of Japanese Ministry of Health and Welfare) of No. 5 A Detergent compositional standards

Note 2. Division: Non-fatty acid detergent Testing 10 times(V/V) dilution

Note 3. Testing 10 times(V/V) dilution
